

## Rabbit Polyclonal Antibody to TIMP-3

<b>Catalog No.:</b>	RP 072, RP 072-05
<b>Applications:</b>	Research Use Only. Optimal working conditions must be determined by the end user.
<b>Immunogen:</b>	A synthetic peptide derived from the C-terminus region of the human TIMP-3.
<b>Host:</b>	Rabbit
<b>Format:</b>	Purified immunoglobulin fraction of rabbit antiserum against human TIMP-3 containing sodium azide as a preservative.
<b>Titer/Working Dilution:</b>	This antibody may be diluted to a titer of 1:25-1:50 in an ABC method. The final dilution should be determined by the user based upon the staining conditions employed.
<b>Staining Protocol:</b>	We suggest an incubation period of 30 minutes at room temperature. Optimal incubation conditions should be determined by the user based upon the fixation conditions and staining system employed. <u>Formalin fixed paraffin embedded tissue sections require high temperature antigen unmasking with 10 mM citrate buffer, pH 6.0 prior to immunostaining.</u>
<b>Specificity:</b>	This antibody reacts with a 23kD protein, known as TIMP-3. TIMPs form tight inhibitory complexes with MMPs, which are involved in matrix degradation, tumor invasiveness, and metastasis. TIMPs inhibit the proteolytic invasiveness of tumor cells and normal placental trophoblast cells. This antibody cross reacts with rabbit and baboon.
<b>Positive Control:</b>	Breast carcinoma
<b>Cellular Localization:</b>	Cytoplasmic
<b>Storage:</b>	Store at 2-8°C. Do not use beyond the expiration date stated on the label.
